Department. Tax Department

Adv. Nacker specializes in import and export law, in indirect taxes and in international forwarding, and also represents clients in complex litigation proceedings relating to these issues.

Adv. Nacker is considered as an expert in these fields, and provides clients with comprehensive legal consulting on a wide range of issues in the fields of customs and international trade, among them providing professional opinions and indirect tax planning, handling retroactive assessments, handling claims for retrieving excessive import taxes, handling the verification of certificates of origin, handling anti-dumping proceedings, obtaining Customs Authority's rulings, advising on international trade agreements (Free Trade Areas and WTO-GATT agreements), export control and more.

Adv. Nacker represents clients in disputes relating to maritime law, aviation law and international forwarding, including claims regarding cargo damages and delays in their arrival, claims regarding professional negligence of various logistics entities, and various claims against insurers.

Adv. Nacker advises on legislation and regulation proceedings in the import field and possesses extensive experience in working with policy makers and enforcement authorities in the field.

Among Adv. Nacker's clients are some of Israel's leading importers, exporters and industrialists, leading international companies, customs agents, international forwarders, insurers and other entities which handle international trade and international transport.
